## **Problem Statement:**

Shivjyoti Hotel near our campus wants to enhance its efficiency and communication with students by having an online presence. The hotel management wants to create a user-friendly website that provides relevant information to students, such as daily menu, special dishes, hotel timings.

## **Solution:**

The first step was to gather requirements from the hotel ,various discussions were held to understand their needs, including the types of information to be displayed, desired features, user interface preferences.Based on their requirements, a detailed plan was created outlining the website's structure, content organization, and functionalities.

The appropriate platform and technology were selected to develop the website. Depending on the project's complexity requirements, technologies such as HTML, CSS, JavaScriptetc. have been used.Ensuring the website's responsiveness on various devices was a priority. The design was made adaptive and flexible to provide an optimal viewing experience across different screen sizes.

Informative content, including hotel menu details, special dishes, hotel timings, and other relevant information, was created. Content was designed to be easily understandable. Various tests were conducted to identify and fix any bugs or issues. Testing involved checking the website's functionalityand compatibility across different browsers and devices.

Once the website was thoroughly tested it was made accessible to users.The successful creation of the website was a result of effective communication, adherence to best practices, and a commitment to delivering a user-friendly and beneficial platform for the hotel.

## Website Image

The screenshot shows the homepage of the ShivJyoti Hotel website. At the top right, there are navigation links: "How it works", "Meals", "Testimonials", "Pricing", and a prominent orange "Try for free" button. In the center, there's a large headline: "A healthy meal delivered to your door, every single day". Below the headline is a brief description: "The smart 365-days-per-year food subscription that will make you eat healthy again. Tailored to your personal tastes and nutritional needs." To the left of the text are two buttons: "Start eating well" (orange) and "Learn more ↓" (white). To the right is a collage of images showing various meals and a person eating at a table.

**A healthy meal delivered to your door, every single day**

The smart 365-days-per-year food subscription that will make you eat healthy again. Tailored to your personal tastes and nutritional needs.
